Möglichkeiten der Ablaufoptimierung in orthopädischen Operationssälen	Walther M., Lenhart F.-P., Metz C., Rzepecki A., Petzold Y., Mayer B.	Orthopäde (2007) 36: 523. https://doi.org/10.1007/s00132-007-1097-0	2007
Is cerebral control of plasma [Na] a major determinant for systemic sodium balance?	Häberle, D.A.; Biller, W.; Ise, T.; Metz C.J	Kidney Int Suppl. 67:S242-4	1998
Chloralose/ketamine anaesthesia preserves a form of postprandial sodium chloride balance in Wistar rats	Metz, C.J.; Ise T.; Haberle, D.A.	Pflugers Arch. 432(5):944-7	1996
Renal and single nephron function in thiobutabarbitone- and thiopentone-anaesthetised rats	Häberle, D.A.; Davis, J.M.; Kawabata, M.; Metz, C.; Wapler, P. and Stachl, M.	Pflügers Arch. 424:224-30	1993
Sodium balance without volume expansion in chronic and acute dietary NaCl-loading in rats	Metz, C.J., Felbel, J.M. and Häberle, D.A.	Pflügers Arch. 422: R122	1993
Normal Evans Blue (PV) and Inulin spaces (ECV) in chronic dietary NaCl-loaded rats	Häberle, D.A.; Metz, C.; Mast, C.	Renal Physiol. Biochem. 15: 207	1992
Autoregulation of the glomerular filtration rate and the single-nephron glomerular filtration rate despite inhibition of tubuloglomerular feedback in rats chronically volume--expanded by deoxycorticosterone acetate	Häberle, D.A.; Königbauer, B.; Davis, J.M.; Kawata, T.; Mast, C.; Metz, C. and Dahlheim, H.	Pflügers Arch. 416:548-553, 1990	1990
